

2035 Proposed Interim Targets

Scope 1 and 2 Interim Target

Assumption:

- Stationary Combustion and Purchased Electricity (Business as Usual)
- Following CBC Decarbonization Pathway for all other activities

Interim Target:

50% reduction of Scope 1 and 2 by 2035

(compared to the 2019 baseline)

Important note: There are key external factors that may negatively impact the future of the plan, including

- Data quality
- Supplier dependency
- Government policy
- Cost pressure
- Industry collaboration
- Technology dependency (e.g. use of AI, digital services could increase emissions due to energy intensity)

CBC/Radio-Canada commits to reviewing the reduction targets every 5 years to validate and adjust as needed.

What are Scope 1 and 2 GHG emissions?

- Scope 1 emissions are direct emissions from sources a company owns or controls (e.g. on-site fuel combustion)
- Scope 2 emissions are indirect emissions from the purchase of electricity, steam, heat, or cooling

2035 Proposed Interim Targets

Scope 3 Interim Target

Interim Target:

40% reduction of Scope 3 by 2035

(compared to the 2019 baseline)

Important note: There are key external factors that may negatively impact the future of the plan, including

- Data quality
- Supplier dependency
- Government policy
- Cost pressure
- Industry collaboration
- Technology dependency (e.g. use of AI, digital services could increase emissions due to energy intensity)
- Carbon footprint of independent productions

CBC/Radio-Canada commits to reviewing the reduction targets every 5 years to validate and adjust as needed.

What are Scope 3 GHG emissions?

- Scope 3 emissions refer to all indirect greenhouse gas emissions that occur in a company's value chain, but are not directly owned or controlled by the company
- There are 15 categories of Scope 3 emissions including:
 - Procured Goods and Services*
 - Capital Goods
 - Fuel and Energy related activities
 - Waste generation
 - Business travel
 - Employee commuting
 - Upstream leased assets
 - Downstream leased assets

* Scope 3 category 1 calculation excludes production-related commissioned content (independent productions) until further evaluation.
